

A brand new concept for a large multi national operator, The Italian Kitchen at Lakeside Shopping Centre, was designed to be a modern take on the traditional Italian family kitchen.

A bright modern style was developed, with a mixture of pale blue and light oak timber as the main identity, contrasting with the dark brown accent colour to the furniture. Large communal tables with contemporary lighting and bright coloured chairs mixed with the vintage black and white classic Italian images, lends the style a bold yet distinctively light-hearted feel with a warm friendly atmosphere.
